

GRAND Value Paths™

Strategy Execution - Change Focus

- Create an effective Strategic Plan unique to your business context. Identify “Strategy Pillars” that support the Foundation for successfully executing your Strategy. Guide the selection of your alternative Strategic Objectives that are predefined based on your Strategy.
- Fine-tune your Strategic Plan by selecting from pre-defined Initiatives which are linked to recommended Actions that utilize relevant, pre-configured reports, visuals, analytics content, and dashboards. Accomplish Performance Measurement & Management functions via establishing goals for each initiative as well as defining and monitoring an action plan to accomplish each initiative.
- Collaborate by sharing assigned Business Objectives, the goals established for each initiative, and the Actions that are specifically defined to accomplish the initiative. Explore and discover new opportunities to implement change, accomplish the initiative, and/or tracking the actual results associated with the initiatives.

*GrandMetrics enables our SME clients to execute "The Strategy-Focused Organization" and "Organizational Alignment" vision effectively by implementing a **Strategy Formulation, Planning & Execution** solution that sets business priorities and align organizational resources around strategic goals and objectives; thus identifying, creating, and capturing long-lasting cost reduction and profit improvement opportunities while achieving sustainable value creation and profitable growth.*
