

GRAND Dimensional Paths™

Business Dimension (Financial)

- **Financial Results** - measure asset utilization on various business dimensions and assess revenue creation capability
- **Financial Position** - assess the financial condition and the status of assets, liabilities, and owners' equity (and their interrelationships), as reflected in its financial statements
- **Financial Analysis** - evaluate businesses, projects, budgets, etc. to determine their performance by analyzing the income statement, balance sheet and cash flow statement
- **Transaction Profitability** - measure, optimize, and predict profitability at a granular level (i.e. the lowest level of detail)
